

PAN AM FLIGHT 1701 featuring FAT TONY

Time writes what we long to say
Speak to soon we'll be in the way
Speak too late we'll be in the past
It ain't easy getting stuck like that
It ain't easy trying to make it all fit
Always gotta give to get

I wanna live and let live letting go of the rest
I wanna live and let live letting go of regret
I wanna live and let live let me know if you're with it
I wanna live and let live aint counting the minutes

Cause when it all adds up and you gotta look back
That's when you'll know
If you get in the way of where you've been
Then where you gonna go
Let time unfold Let time unfold
Let time Let time Let time
Time writes what we long to say
Speak to soon we'll be in the way
Speak too late we'll be in the past
It ain't easy getting stuck like that
It ain't easy trying to make it all fit
Always gotta give to get

I wanna live and let live letting go of the rest
I wanna live and let live letting go of regret
I wanna live and let live let me know if you're with it
I wanna live and let live aint counting the minutes

Cause when it all adds up and you gotta look back
That's when you'll know
If you get in the way of where you've been
Then where you gonna go
Let time unfold Let time unfold
Let time Let time Let time

If you look back thinking like one big setback stepback
Get off the ledge of regret that
Yes that Never has ever been easy but nothing's been easy
And if it was
And you Don't receive it You can't take it and leave it

Its with you
It's Breathing When the fan slows down in the ceiling
And the phone cut off for the evening
And the TV's gone silent
That's when it comes out of hiding
It's growing Its gliding right past you beside you
It's a chance to choose
And with Certainty's permission it's hard
To lose.....

I wanna live and let live
I... Wanna live and let live
I... Wanna live and let live
I... Wanna live and let live

Letting go of the rest
Letting go of regret
Let me know if you with it
Aint Counting The minutes

I wanna live and let live letting go of the rest
I wanna live and let live letting go of regret
I wanna live and let live let me know if you're with it
I wanna live and let live aint counting the minutes

Cause when it all adds up and you gotta look back
That's when you'll know
If you get in the way of where you've been
Then where you gonna go
Let time unfold Let time unfold
Let time unfold Let time unfold
